

Objective 1: Agricultural policy developments in pre-accession countries

Feb – Jun 2022

Completed activities

- Review of the previously used methodology and recommendations for improvements
- Final templates for: collection of data on agri-policy measures (APM), and outline for the country case studies
- Collect agricultural policy data in the respective country/territory (APM database)
- Provide a cross-country harmonised and consistent database of the support level by specific policy instrument as well as aggregated support level of the individual policy instruments by the support type following the international classification of agricultural support.
- First draft country case studies (national reports) including:
 - Country specific analysis of agricultural policy developments and the EU accession process for all WB countries based on policy information collected
 - Major changes in policy instruments adopted in last years in the WB countries
 - Comparison of the agricultural policy in WB countries with CAP
